BILLINGS, MT 59105 (WILLING TO RELOCATE) | 406-998-7543 | [linkedin.com/in/ted-hipps-7a31b33ab](https://www.linkedin.com/in/ted-hipps-7a31b33ab)

U.S. Army Veteran and certified IT support professional who brings a practical, mission-first mindset to network stability and security. Fully credentialed with the CompTIA Security Analytics Professional and Network+ certified. Combines a dependable operational background with hands-on technical expertise in core networking protocols, secure system administration, and proactive threat mitigation. A reliable problem solver focused on clear communication and attention to detail, dedicated to delivering solid network infrastructure and helpful end-user support.

## CORE COMPETENCIES

Networking Infrastructure: TCP/IP, DNS, DHCP, Routing and Switching, Cisco Packet Tracer

Systems and Support: Windows, Linux, macOS, Help Desk Support, Technical Troubleshooting Security

Analytics: Vulnerability Management, Endpoint Protection, Incident Response, Access Control

## TECHNICAL TRAINING AND EDUCATION

**Cyber Warrior Program** | My Computer Career

01/2026 – 04/2026

**Certified: CSAP (CompTIA Security+ & CompTIA CySA+) and Network+.** (A+ in progress)

- Supported server and end-user security configurations, system setup, and hardware installation.
- Troubleshot network incidents, documented resolutions, and monitored shared storage/antivirus.
- Demonstrated hands-on proficiency in OS configuration, networking basics, and cloud fundamentals.

**Associates of Arts Business Management & Accounting** | Independence University – Remote 2017-2018

## TECHNICAL PROJECTS

**Cybersecurity Lab Researcher** | (Independent)

04/2026 – Present

- Build and document active home lab projects to validate core networking and security concepts.
- Deploy and manage enterprise endpoint protection configurations using tools like Sophos and Malwarebytes.
- Implement identity and access management solutions, reverse proxies, and file integrity monitoring protocols.
- Maintain a dedicated public GitHub repository containing clear technical documentation and troubleshooting logs.

## PROFESSIONAL EXPERIENCE

**Project Assistant** | BeSpoke of Montana, LLC – Billings, MT

06/2023 – 10/2025

- Managed site-specific project logistics, material tracking, and client communications to ensure smooth daily operations.
- Resolved structural hurdles and technical project challenges through active collaboration with leads and clients.
- Maintained precise documentation for inventory accountability, site deliveries, and regulatory safety compliance.

**Assistant Manager** | Arby's – Billings, MT

01/2022 – 05/2023

- Supervised daily high-volume operations and trained staff on workflows to maintain service quality and efficiency.
- Resolved customer concerns and employee issues through effective communication and proactive problem-solving.

**Sales Manager** | Impact Photographics – Billings MT

02/2017 – 10/2019

- Managed high-stakes inventory accountability and logistics for multiple remote sites.
- Resolved operational hurdles and stock discrepancies on-site, ensuring data accuracy in tracking systems.

## MILITARY EXPERIENCE

**U.S. Army | Military Police**

07/2012-10/2015

- Maintained security and mission-critical hardware in high-responsibility environments.
- Troubleshot communication and vehicle equipment, mastering complex technical protocols rapidly.
- Delivered clear communication and problem-solving skills to exceed performance standards.
- Selected for responsibilities requiring 24/7 on-call availability and rapid deployment, ensuring operational continuity in high-stress field conditions.
